

Brownsville Independent School District

Brownsville Early College High School

2019-2020 Campus Improvement Plan

Accountability Rating: A

Distinction Designations:

Academic Achievement in English Language Arts/Reading
Academic Achievement in Mathematics
Top 25 Percent: Comparative Closing the Gaps
Postsecondary Readiness

Board Approval Date: November 6, 2019
Public Presentation Date: October 16, 2019

Mission Statement

The mission of the Brownsville Early College High School, working in partnership with the University of Texas RGV and Texas Southmost College is to develop knowledgeable citizens and emerging leaders who are engaged in the life of their community. We embrace teaching excellence, active inquiry, lifelong learning and rigorous scholarship in service to the common good. We honor the creative, cultural and environmental heritage of our region.

Vision

BECHS will produce well-educated graduates who can pursue higher educational opportunities and who will become responsible citizens in a changing society by utilizing all resources to provide equitable opportunities for all students.

Value Statement

We believe that: high expectations are essential in fostering higher achievement; academic success nurtures lifelong learning; everyone flourishes in a safe and healthy environment; all persons in our educational community have inherent value, gifts and strengths; the success of each student, teacher, staff member, administrator and family is essential for the success of the entire school community; families share responsibility for the development and mentoring of our students; perseverance and hard work are essential for success; sensitivity is essential to understanding the needs of others; and students are the number one resource for our future.

Comprehensive Needs Assessment	5
Demographics	5
Student Academic Achievement	6
School Processes & Programs	9
Perceptions	11
Priority Problem Statements	13
Comprehensive Needs Assessment Data Documentation	14
Goals	16
Goal 1: BISD students will receive educational opportunities that will produce well-rounded graduates who are prepared for the future, are college/career ready, and are responsible, independent citizens. (Board Goal #1 and TEA Ch. 4 Objectives 2, 4, 5, 7, and 11).	17
Goal 2: The Board of Trustees, in collaboration with District Staff, Administration, Parents, and Community will ensure equity in availability of appropriate, well maintained, energy efficient facilities for a safe and orderly learning environment for all students. (Board Goal 2)	25
Goal 3: The District will ensure effective and efficient use of all available funds in implementing a balanced budget which includes improved compensation for teachers and plans to recruit, retain and support highly qualified personnel. (Board Goal 3) (TEA Ch. 4, Obj. 6)	27
Goal 4: All BISD programs and campuses will work closely and collaboratively with the BISD Public Information Office to expand public relations/marketing campaigns to further expand student enrollment/recruitment/ and retention efforts. (Board Goal 4)	29
Goal 5: School campuses will maintain a safe and disciplined environment conducive to student learning. (TEA Ch. 4, Obj. 8)	31
Goal 6: The Board of Trustees, in collaboration with District Staff, Administration, Parents, and Community will provide required support and resources for the attainment of educational excellence and equity. Parents will be full partners with educators in the education of their children. (TEA Ch. 4, Obj. 1)	35
Goal 7: Educators will keep current with the development of creative and innovative techniques in instruction and administration using those techniques as appropriate to improve student learning. (TEA Ch. 4 Obj. 9)	39
Goal 8: Technology will be implemented and used to increase the effectiveness of student learning, instructional management, staff development, and administration. (TEA Ch. 4 Obj. 10)	43
Goal 9: Through enhanced dropout prevention efforts, all students will remain in school until they obtain a high school diploma. (TEA Ch. 4 Obj. 3)	46

Comprehensive Needs Assessment

Revised/Approved: May 22, 2019

Demographics

Demographics Summary

Brownsville Early College High School, BECHS, is located at 343 Ringgold Road in Brownsville, Texas. BECHS is one of nine high schools in the Brownsville Independent School District, BISD. BISD is an Early College district which includes six comprehensive, school within a school, early college high schools. However, BECHS is the only standalone early college high school and is considered a Title I campus. The campus was established in 2008 at the Clearwater Elementary campus until a new building was built on land donated by Texas Southmost College. Today, the new campus building is located a short walk from the University of Texas Rio Grande Valley and Texas Southmost College (UTRGV/TSC). We are in partnership with both UTRGV and TSC.

The student population at BECHS is approximately 420 and serves students in grades 9 through 12. This year, 19-20 we will have our ninth graduating class. BECHS students have the opportunity to enroll in dual credit courses as early as their 9th grade year while juniors and seniors are enrolled at the university full time. Our goal at BECHS is to ensure all students graduate core complete with UTRGV and earn an Associates Degree in General Studies with Texas Southmost College. As a result, students earn their 42 core hours and up to 60 hours towards a bachelor's degree.

We have a 99.2% Hispanic student population where 90% are classified as low socioeconomic status. Therefore, all of our students qualify for a free breakfast, lunch, and dinner. We have at-risk, migrant, ELL, and 504 students enrolled in our campus. Enrollment numbers are increasing as the community becomes aware of BECHS and the opportunities it provides.

According to the PEIMS Data Review of our campus profile, the student population includes: Hispanic - 99.2%, White .53%; African American 0%; Asian .27%; Economically Disadvantaged 86%; Limited English Proficient (LEP) .27%; At-Risk 26.47%; Migrant .53% and Special Education/504 -- 4%. Additionally, the mobility rate is 2%; the retention rate is 0% for All Students, for At-Risk students and for all other categories of special populations. Overall, the attendance rate for the school year is 98.9% for all students. The completion rates for the school year is 100% and the graduation rate is the same --100%-- for all students and for at-risk students. Consequently, the dropout rate for the school year is 0%.

The current staff at Brownsville Early College High School is comprised of 18 teachers, two campus administrators, one security guard, one nurse, two counselors, three staff members and two custodians. The teaching staff is 44% male and 56% female, GT certified, and Advanced Placement trained through College Board. Additionally, 56% of our teachers hold a master's degree.

Demographics Strengths

We extend our recruitment efforts to all 8th grade counselors. We meet with them as a group to explain what distinguishes BECHS from other early college high schools and to explain the importance of the embedded rigor in each of the core area classrooms. In our recruitment efforts, we are explicit about the supports which are provided to our students (before and after school tutorials, peer mentoring) to encourage those students who are unsure of themselves that BECHS is a viable option as an educational choice for them to consider. We are able to help those students who might normally struggle on their own. Because our students are individually interviewed along with their parents and/or guardians prior to entering BECHS, students have a clear understanding of the expectations of a college preparatory academy. The students understand that this is a school of choice, and that it will be academically rigorous. Students select this school because they are academically focused and have a desire to attend the university. All of our students are TSI ready by the

end of their sophomore year. We offer a credit recovery program (Edgenuity/Compass Learning) in case students fail a course. Students are encouraged to participate in clubs and are encouraged to participate in community projects. Edgenuity/Compass Learning and APEX among other resources are used to prepare students for ACT/SAT, TSI, Advanced Placement tests, End of Course.

The students of Brownsville Early College High School are recipients of a well-balanced curriculum. Our students follow both the Student Code of Conduct (prepared by BISD) and the Student Handbook (a product of both UTRGV and BECHS). Courses are offered in every subject area necessary for college admission as well as a diverse range of elective and career and technology courses. The instructional programs include academic core subjects at various levels, such as the Gifted and Talented, Honors, Advanced Placement, and dual credit in collaboration with the University of Texas RGV and Texas Southmost College. Students at our school have access to various graduation plans: these include the Foundation High School Plan and Distinguished Level of Achievement, with endorsements and performance acknowledgments. All students are required to meet the passing standard of the five assessments which comprise of the State of Texas Assessments of Academic Readiness (STAAR).

DEMOGRAPHIC CHALLENGES (NEEDS)

1. According to the PEIMS data review of our Campus Profile, 99% of our student population is Hispanic and is identified as economically disadvantaged. The majority of our students are first generation college attendees, 2% are classified as Limited English Proficient and a majority of our students speak both English and Spanish. In addition, several of our students come from homes which participate in state and federal assistance programs such as food stamps, welfare, the Women Infant Children (WIC) nutrition program, subsidized housing and medical assistance.
2. In order to provide and increase the availability of a wide variety of courses, we must increase the number of highly qualified dual enrollment and AP qualified teachers. We must also provide professional development opportunities to increase teacher content and pedagogy knowledge. With the increase of courses, there is a need for additional classrooms. Currently, BECHS has one floating teachers. The teachers' workroom is being utilized as a makeshift library, limiting student resources such as books, media, and technology.
3. Student achievement ceremonies, informational student assemblies, speaker presentations, college and career fairs, and monthly parent meetings are held in the cafeteria. However, we do not have a lecture hall or a room spacious enough to hold all students and parents. An updated sound system, projectors and monitors are necessary to provide optimal assemblies.
4. Although emergency notifications through the district's School Messenger are provided, there is a need for parents to have a better connection to the UTRGV alert system.
5. Need for incentives to support teacher professional development opportunities
6. need to use appropriate technologies to increase opportunities for AT HOME learning.
7. Need for incentives to increase our attendance rate

Problem Statements Identifying Demographics Needs

Problem Statement 1: Campus at risk enrollment continues to be below the expected number for TEA designation **Root Cause:** Competition with other high school programs (extra curricular activities)

Student Academic Achievement

Student Academic Achievement Summary

Overall students at BECHS perform well on the state End of Course(EOC) exams. Currently, we only have 1 students that need to retest on 1 EOC exams. Campus and district benchmark data is used to plan targeted and effective instruction. This data also facilitates the planning EOC Prep Tutorials in place for all tested areas. Tutorial sessions are provided daily in the morning, during lunch, afterschool, and occasionally on Saturdays. Moreover, all students are expected to pass all three parts of the Texas Success Initiative, TSI, so they can enter the university on their 11th grade year. All freshmen and sophomores are provided the opportunity, throughout the school year, to pass each of the three sections before the university deadline. To achieve this, students take advantage of the tutorials offered before and after school, the peer mentoring, and retesting opportunities.

On the state-generated report card, BECHS received distinctions in 2 areas:Top 25% in Closing Performance Gaps and Postsecondary Readiness.

End of course -- all students' summary:

English I: 95% Passing	Meets: 83%	Masters: 21%
English II: 99% passing	Meets: 96%	Masters: 17%
Algebra I: 100% passing	Meets: 91%	Masters: 66%
Biology: 98% passing	Meets: 79%	Masters: 22%
U.S. History: 100% passing	Meets: 97%	Masters: 59%

When student performance scores were compared over a period of years, it confirmed that the rigorous curriculum at BECHS results in superior performance by all students, regardless of special population status.

Performance variation between all student groups:

Reading and Writing: 100% passing

Math: 100% passing

Science: 99% passing

Social Studies: 100 % passing

Student Academic Achievement Strengths

Teacher moral and motivation is high, resulting in cultivating and embracing new ideas to deliver instruction. This attitude reflects upon the students and their own motivation to succeed. To ensure student success, parents are encouraged to sign up to access Home Access Center, HAC, to ensure they keep abreast of their child's progress throughout the school year. Parents are provided with a progress report every three weeks, and teacher call, email, and hold parent conferences when students are at risk of failing.

Students at BECHS attend the university during their junior and senior year as part of their high school experience. Therefore, everyone needs to

be TSI ready by March of their 10th grade year. The university promotes a strong partnership with BECHS and frequently communicates information necessary to provide support to our struggling students, and to provide additional educational opportunities available.

Our campus improvement plan is monitored every quarter. The CIP is developed and reviewed at the beginning of the year and at the end of the year as a whole group project. During one of our parent meetings at the beginning of the year we go over our scores for End of Course, TSI, dual credit completion and our campus budget. We share the amount we received from state comp, local and Title I. We share our projected expenditures for the new school year.

Students' academic successes are celebrated often on campus. These National Honor Society Induction, Sociedad Honoraria Hispanica Induction, Graduation Ring Ceremony, and Awards and Achievement Night. Announcements of student successes are made through the intercom and displays student awards, trophies and certificates are visible in the office and on the campus website. One of the most celebrated events on the campus, which includes all stakeholders, is graduation. Graduation takes place at the TSC Fine Arts Center where all participants (students and faculty) wear their academic regalia.

Student Academic Achievement Needs

1. Every student needs to have a personal graduation plan and a program of study. After making these decisions, student support needs to come from every member of the campus staff, starting with their counselors and teachers, and including campus administration. Personal graduation plans are individualized and unique for every student. It is necessary to give counselors extra time (supplemental duty) to ensure students are being successful and to provide socio-emotional support.
2. To support academic achievement, attendance is important. BECHS has the highest attendance rate of all high schools in the district. However, students still need to be encouraged to attend class every day and be on time. Incentives will be provided to students that have perfect attendance every 3 weeks and at the end of the six weeks.
3. Over the four years at BECHS, the maturation process allows them to understand and value the education they are receiving. Too often the 9th graders want to give up when they encounter the rigor in the classrooms and the high expectations of their instructors. Students need to be taught to overcome these difficulties rather than quitting. It is imperative that incoming 9th graders attend a two week Summer Bridge program to help strengthen their math, reading, writing skills, test taking strategies for EOC, TSI, SAT and ACT, and to introduce them to a rigorous curriculum at BECHS. The rigorous curriculum at BECHS encompasses some electives that require individual and group presentations and research. HB 5 requires the campuses to cover cyber security. We offer computer etiquette and cyber security lessons during summer bridge. Instructional supplies for Summer bridge are necessary to carry out a successful summer bridge program.
4. Our 9th and 10th grade students enroll in Honors and/or AP courses while students in 11th and 12th grade attend UTRGV and TSC and are enrolled in dual courses. Students are given the opportunity to take and challenge AP tests in the different content/elective courses. BECHS will provide the AP exams by paying for them through budgeted funds.
5. At the beginning of the school year, students new to BECHS will be given their first writing and math Texas Success Initiative (TSI) exam. The diagnostic information from this exam will be used to focus on their strengths and weaknesses once they enter BECHS. APEX program is used as an instructional tool to better prepare students for the TSI, EOC, ACT/SAT. BISD and BECHS offer the TSI at no cost to the students. TSI units are bought with budgeted funds to ensure we give every student multiple opportunities to test on the TSI. Teachers utilize data from benchmarks, TSI exams, and EOC assessments to determine students who are at risk. The data will help us better meet our student needs. Based on the data, tutorials sessions are offered to students before school, afterschool and Saturdays. Saturday tutorials are an integral part to student success at BECHS. Teachers will plan once every nine weeks to go over student performance data, discipline data, attendance data and align needs with curriculum outcomes. Student's success is our ultimate goal. In order for us to continue on our path to success, each student must be part of AVID grade specific. Teachers need to be AVID trained in order to better prepare students for our rigorous course work offered at BECHS and for their Dual Credit courses. AVID Summer institutes are held at different locations around the nation. Teachers will attend the AVID summer institute in order for BECHS to implement AVID curriculum and instruction. Teachers provide instruction on notetaking (Cornell Notes), planning, time management, and college and career options. In order to be part of AVID and receive training and best practices an annual membership is required along with an subscription. It is imperative we provide workbooks, composition books, copy paper in order to provide the opportunity for students to take notes and teach necessary study skills for college and career success. Curriculum alignment and teacher training are necessary to ensure student success in all areas of testing, course work and post-secondary. Along with training and AVID strategies, BECHS tries to provide a college going culture by ensuring students are exposed to the different universities, colleges by displaying thier banners and/or institution flags. The banners are a great way to promote curiosity and in turn students will be more willing

- to do research and have a point of reference. We have university onsite registration and admission from different local, state and national universities.
7. All teachers (core and elective teachers) need additional dynamic professional development to address the needs of students struggling with writing concepts, writing within a time limit, and those who struggle with revising and editing. In addition, professional development needs to include ways to incorporate dictionary skills, the use of new and innovative technology to help engage and assist students with difficult concepts. Teachers need to attend state and national conferences to better prepare themselves to teach the new era of student and student learning.
 8. Teachers need access to computer labs, Computers on Wheels, projectors and software that will help with implementing curriculum. Presentation and whole group tutorials are done in the cafeteria for current 11th and 12th graders on EOC preparation, College scholarship opportunities, and SAT/ACT . The cafeteria is in need of monitors, projectors and a new sound system to better carry out instruction and tutorial. To improve our collegiate climate, we need to purchase new computer desktops/laptops and new projectors for the teachers so that teachers can continue to utilize technology in the classroom. We need to continue to have copy paper available for teacher use. Copy paper is essential to provide tests, benchmarks and necessary assignments. Our CTE teachers need the most updated computers and programs to carry out their demands of the courses offered. We need to have computer labs accessible to our students at all grade levels. We don't have rooms available for computer labs. We need to improvise and purchase lap tops and carts to hold those laptops to have Computer on wheels available for check out. Students 9-12th graders are expected to do research, do online assessments, and turn in assignments via on line. Thus, t BECHS we need to ensure we purchase laptops, computer carts and hdmi cables both for student and teacher use.
 9. For the current school year college textbooks, access coded, supplemental materials are required by the university. Books, lab coats, safety goggles and curricular materials and laptops are a yearly expense. Also, students are taught time management skills through their enrollment at BECHS. The use of student planners is essential in the success of the students. The purchase of planners to distribute to the students will be done to ensure students are planning thier semesters accordingly. The Memo of Understanding between the university and BECHS states books, supplemental materials, transportation, are a district expense. Implementing the MOU is imperative for the effective operation of the school and essential to promote student and parent confidence that these funds be deposited into the correct accounts at the beginning of the budget year (July). University professors do not make allowances for students who attend class on the first day without their books and other materials. In some cases, students are assigned work prior to the first class meeting and they are expected to be able to discuss this material in the class. We need to provide these materials to the students prior to the first class day, so our students are not at a disadvantage. When the District funds us in July, it allows sufficient time to order books and all necessary supplementary materials as well as to prepare the laptops for student use.
 10. To ensure students are rewarded when they excel, we must be able to reward them throughout the year. We celebrate success by recognizing them at awards night, attendance recognition ceremonies, movie nights, encampment end of year celebration and ultimately Graduation. Graduation night is ultimately the most important event where we recognize students' achievements and accomplishments. In order to accomplish recognitions we must provide supplies for increased student participation and achievement.
 11. Instructional Materials must be purchased to better meet the needs of the students. Instructional materials may include but not limited to software for EOC, TSI, ACT/SAT Prep.
 12. During summer bridge we have the custodians ensuring we have the necessary supplies to maintain the facilities clean and user friendly. Additional, custodial supplies would need to be purchased to ensure we provide a clean and safe educational environment for our incoming and current students.
 13. BECHS is needing to purchase teacher desk tops and printers, student laptops, software, and other instructional resources that will enhance the instructional setting and increase student learning. The use of new technology such as Virtual Reality instructional hardware and software are important to prepare students for 21st century learning.
 14. Supplies necessary to carry out the day to day operations of the campus will be bought. This includes supplies for the custodians, nurse and administrative staff and counselors.

School Processes & Programs

School Processes & Programs Summary

The close partnership with UTRGV promotes high teacher expectations from students. The two years of high school are taught with advanced placement concepts to ensure students are ready for the rigor they will face in dual credit courses as early as 9th grade. All students attending the university are projected to complete up to 60+ hours of university classes (the requirements they need for students to be core complete) and obtain an Associates Degree with TSC. Teachers implement I3 teaching strategies and Honors/AP rigor. Additional professional development is required for teachers to remain GT/Honors/AP certified. Campus data shows students are successful on End of Course.

Students must successfully complete their EOC exams necessary for graduation. Students must pass all three parts of the TSI test and all their classes before they can be enrolled at UTRGV. Students who struggle academically have the opportunity to attend targeted tutorials, before, during and afterschool. Saturday academies will be made available to students who need reinforcement and reteaching of concepts. The Saturday academies will focus on reading, writing, math skills.

Student mentoring program is in place to help struggling students. The National Honor Society has initiated a mentorship program to help struggling BECHS students. Coupled with the best practices exhibited by AVID teachers and the use of TSI tutorials, APEX and other programs, students of all populations have access to a great deal of necessary academic support. Programs such as Edgenuity/Compass Learning, and Turnitin are used to reinforce concepts, regain credits and check their academic honesty before turning in any research projects/papers. BECHS orientation is required so students understand the importance of all the responsibilities associated with being a BECHS/UTRGV/TSC student.

Presentations and report-outs by core area department chairs and counselor at all meetings keep all who attend informed of student successes and needs. There is close monitoring by our counselors of student grades with rapid follow up and parental conferences/meetings, as needed.

Staff Quality, Recruitment, and Retention Summary:

BECHS works in closely with UTRGV. We have implemented professional development idea sharing days with professors from UTRGV. We are aligning our teaching and instruction to better meet the needs of the students attending the university. Since UTRGV works hand-in-hand with BECHS, it is preferred that our teachers have a Master's Degree with five years of teaching experience in the field assigned. All core area teachers are experienced and are aided by support personnel of non-core area teachers (AVID, Spanish, Art, Computer Technology, Physical and Health Education and engineering), two campus administrators, two counselors, two custodians and one LVN along with three office staff members. There is little turn over at this campus. When recruitment is required, generally there are excess teachers at another campus and they are interviewed for the needed position at BECHS.

School Processes & Programs Strengths

Curriculum, Instruction, Assessment Strengths:

BECHS teachers work will together and work well with the districts Curriculum Specialists. Teachers write targeted curriculum and revise as the needs of the student change. Teachers work on their own assessments for each of the marking periods and disaggregate their students data in a timely manner. They provide tutorials based on their locally developed assessment. The teachers are excited about the use of technology, mobile devices at school and at home. The TST teacher provides training to teachers on various technological software and hardware.

Curriculum, Instruction, Assessment Needs

1. New English Language and Reading TEKS have been revised and will be in full implementation next school year. All teachers need to be trained on the new TEKS and revisions to the ELAR TEKS. Teachers need to align TEKS cross curriculum to ensure students are being successful at all levels. Increased communication between university professors and BECHS staff is strongly encouraged. Teachers are requesting to meet with our IHE professors to ensure we bridge the gap. Professional development days need to be scheduled for this and subsequent years. At times, Saturday or afterschool are the only times available to the teachers at BECHS and the university. Supplemental duty pay and stipends need to be paid for the extended time used to plan.

2. All teachers need to work on alignment of subject area skill sets. BECHS needs to provide the opportunity to do curriculum alignment based on prior years success and concerns on State assessments, TSI, SAT/ACT and college course work. Curriculum writing will enable teachers to work into the scope and sequence college and career readiness standards, TEKS amendments, and provide focused instruction supported by materials, equipment and software for effective lessons.
3. Teachers will be given the opportunity to attend the Advanced Placement Summer Institutes. The advanced placement institutes are also available during the school year. The institutes are a great way for teachers to gain knowledge and be able to acquire different teaching strategies and implement the "teach up" idea.
4. All Teachers need access to technology, ipads, calculators and programs and applications to engage students, to have student/teacher interaction and prepare students for college and or career. The need for more interactive technology can be facilitated through purchase of Computers on Wheels Carts, laptops, VR glasses. The need for the latest and greatest technology is of the essence at BECHS in order for our students to excel at the university.
5. Tutorials, summer bridge programs are necessary to ensure students are successful in the courses taken at BECHS and eventually UTRGV, state assessments, TSI and nationally recognized tests.
6. Along with summer bridge, a short summer program as soon as classes are out is necessary. Some students do not attend summer school but may need the enrichment for TSI or other content skills. Right after school year ends, the opportunity lends itself to capture this group of students and do some enrichment and TSI testing.
7. During the course of summer bridge, tutorials, and Saturday academies custodial supplies will be made available to ensure the campus is neat and clean and provides a environment conducive for learning.
8. Administration and teachers need to attend conferences, training and/or workshops to better serve our students. Administration will need to attend AVID, best practices conferences and summer summits that incorporate best practices in instructional strategies, early college strategies and T-TESS and T_Pess relevant content.

Staff Quality, Recruitment, and Retention Strength:

BECHS is fortunate to have dedicated teachers that insist on rigor in the classroom. Having a small school environment, ensures teachers have the opportunity to identify students' strength and areas of growth. All teachers are AP, Honors, and GT trained, turnover rate is extremely low amongst the staff. Since, we only have 9th and 10th grade teachers, they are able to meet and discuss students progress, attendance and behavior. All teachers are involved with student clubs and community service. Teachers take ownership of the student's success.

Staff Quality, Recruitment, and Retention Needs:

Perceptions

Perceptions Summary

The early college designation of a standalone high school encourages teachers and students to excel, fostering a culture and climate of excellence. The expectation elevated by a rigorous curriculum ensures students become successful full-time university students. All stake holders collaborate to guarantee BECHS students are successful at every level.

Teachers actively seek professional development opportunities for their own professional growth and stay up to date with current teaching strategies. Teachers and students uphold the mission to engage in the life of the community by volunteering their time and donating monetary or necessary items to local nonprofit organizations, becoming knowledgeable citizens and emerging leaders.

Leadership at BECHS ensures fostering of effective communication and relationships with family, community, and stakeholders by involving them in the academics and activities offered to the students. Our commitment to fulfill our student needs include providing hot meals for breakfast, lunch and dinner.

Perceptions Strengths

Our small school culture allows students to form strong bonds with their instructors and form cooperative study groups. Highly effective tutorials are implemented and individualized student data disaggregation takes place through Aware and Tango. Some laptops are available for students to facilitate university curriculum, promote email communication between university professors and students, between BECHS, and between teachers and students. Our goal at BECHS is for every student to have access to a laptop, ensuring a means to submit university assignments. BECHS communicates its successes, needs, and progress throughout the year via announcements, call-outs, and the campus website to the community. Additionally, parents are notified via flyers and school messenger, in both Spanish and English, about parental involvement meetings held to update parents concerning assessments (district, state & national), activities, projects, expectations and to address general needs, concerns, questions and annual goals.

We utilize the parent liaisons provided by the Parental Involvement Department to present to our parents on district topics. These individuals are bilingual and well trained. Meetings in English and Spanish help parents feel comfortable. The meetings are informative and dialogue is highly encouraged. All brochures are produced with the teacher's classroom phone number, conference period, and email address to promote increased communication. Brochures and booklets are update for easy reference. Additionally, parents have access to the campus website, where materials are available for their convenience.

BECHS adheres to the TITLE I regulations. Teachers understand and know how important parents are to the success of our students and our TITLE I incentives. We ensure students take home and return the Title I parent -teacher- student compact. BECHS holds a TITLE I parent meeting to provide them a review of federal money expenditures.

Parent activities include - mini health fairs, fall festival, open house and volunteer opportunities.

In addition, the parent meeting dates are listed on the web site. The meeting dates of the year are published and the subsequent meeting is announced at the current monthly meeting. To further entice parents to attend, local speakers from the community are brought in to discuss areas of interest. Teachers provide their email address to parents who, in turn, utilize email to voice their concerns. All faculty and staff emails are listed on the school website. Forms for Home Access Center, HAC, are available to parents.

PERCEPTION CHALLENGES (NEEDS)

1. In order to maintain our college going culture and climate, we need to update technology on a yearly basis. We have two counselor, which is necessary to help monitor student graduation plans and bridge the gap to the university. Both principal and school counselors need access to the students' university grades via Blackboard UTRGV System. There is also a constant need for teachers to meet regularly with university professors to discuss university expectations and student success.
2. Currently, emergency notifications through the district's School Messenger are provided, but there is a need for parents to have a better connection to the UTRGV alert system. Parents and surrounding community need to be informed about the opportunities available to students through BECHS and UTRGV. Also, student achievement ceremonies, informational student assemblies, speaker presentations, college and career fairs, and monthly parent meetings are held in the cafeteria.

However, we do not have a lecture hall or a room spacious enough to hold all students and parents. An updated sound system, projectors and monitors are necessary to provide optimal assemblies.

4. Students increase their proficiency of technology through the use of laptops for class projects, and this allows students to utilize the much-needed on-line library data bases, as BECHS does not have a fully functional school library on site. Due to the constant use of supplies from school year to school year, the replacing of aging and non-functional equipment is imperative. This includes: projectors, TI-Inspire Calculators, math specific protractors, digital handheld recorders, and batteries for calculators.
5. Additional supplies essential for teaching include but are not limited to: core area supplemental textbooks, novels, graph and patty paper, and testing scantrons. Science specific (Chemistry & Biology) supplies and equipment like aprons, lab coats, preserved dissecting kits, microscopes, probes, loggers and eyewear are needed in order to conduct safe productive experiments.
6. Printers, laptops, classroom smart TVs and projectors are needed for student use for all class subjects. Smartboard and Smartview software upgrades are essential in order to use the Ti-Inspire calculators.
7. Monthly meeting for parents or as necessary will be held to ensure the information is disseminated accordingly. Snacks, coffe, Sweet bread and water will be made available to the parents. Light Snacks and refreshments will be served to better serve our community.

Priority Problem Statements

Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

Improvement Planning Data

- District goals
- Campus Performance Objectives Summative Review from previous year
- Current and/or prior year(s) campus and/or district improvement plans
- State and federal planning requirements

Accountability Data

- Texas Academic Performance Report (TAPR) data
- Student Achievement Domain
- Student Progress Domain
- Closing the Gaps Domain
- Accountability Distinction Designations
- Federal Report Card Data
- PBMAS data

Student Data: Assessments

- State and federally required assessment information (e.g. curriculum, eligibility, format, standards, accommodations, TEA information)
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR Released Test Questions
- STAAR EL Progress Measure data
- Texas English Language Proficiency Assessment System (TELPAS) results
- Advanced Placement (AP) and/or International Baccalaureate (IB) assessment data
- SAT and/or ACT assessment data
- PSAT and/or ASPIRE
- Student failure and/or retention rates
- State-developed online interim assessments
- Grades that measure student performance based on the TEKS

Student Data: Student Groups

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Special programs data, including number of students, academic achievement, discipline, attendance, and rates of progress for each student group
- Economically disadvantaged / Non-economically disadvantaged performance and participation data
- Male / Female performance, progress, and participation data
- Special education/non-special education population including discipline, progress and participation data
- Migrant/non-migrant population including performance, progress, discipline, attendance and mobility data
- At-risk/non-at-risk population including performance, progress, discipline, attendance, and mobility data
- EL/non-EL or LEP data, including academic achievement, progress, support and accommodation needs, race, ethnicity, and gender data
- Dyslexia Data
- Response to Intervention (RtI) student achievement data

- Dual-credit and/or college prep course completion data

Student Data: Behavior and Other Indicators

- Completion rates and/or graduation rates data
- Attendance data
- Discipline records
- Class size averages by grade and subject
- Enrollment trends

Employee Data

- Staff surveys and/or other feedback
- State certified and high quality staff data
- Teacher/Student Ratio
- Evaluation(s) of professional development implementation and impact
- TTESS data
- T-PESS data

Parent/Community Data

- Parent surveys and/or other feedback
- Parent engagement rate
- Community surveys and/or other feedback

Support Systems and Other Data

- Processes and procedures for teaching and learning, including program implementation
- Communications data
- Budgets/entitlements and expenditures data
- Study of best practices

Goals

Revised/Approved: May 15, 2019

Goal 1: BISD students will receive educational opportunities that will produce well-rounded graduates who are prepared for the future, are college/career ready, and are responsible, independent citizens. (Board Goal #1 and TEA Ch. 4 Objectives 2, 4, 5, 7, and 11).

Performance Objective 1: Brownsville Early College High School student performance for all students, all grades, all subjects will exceed 2019 STAAR percent Meets Grade Level and STAAR Masters Grade Level performance in English I, English II, Algebra I, Biology an US History by 5 percentage points

Evaluation Data Sources: STAAR/EOC performance report not available for 2019-2020 due to COVID 19. Evaluations based on benchmark data and passing rates

Summative Evaluation: Significant progress made toward meeting Objective

Schoolwide and Targeted Assistance Title I Elements

ELEMENT 1. SWP COMPREHENSIVE NEEDS ASSESSMENT (CNA)

1.1: Comprehensive Needs Assessment

The comprehensive needs assessment was reviewed May 16, 2019 with the help of all the teachers, counselors and administration and members from the SBDM committee. Groups were developed based on the multiple measures and discussions happened around the strengths and needs of the campus. Teachers discussed benchmarks, eoc data, TSI, six weeks failures and identified areas of need in each of the content areas. Teachers, parents and students have unique perspectives as to what BECHS may need. One point of consistency from all stakeholders was that BECHS's rigor and expectations do prepare students for post secondary education.

ELEMENT 2. SWP CAMPUS IMPROVEMENT PLAN (CIP)

2.1: Campus Improvement Plan developed with appropriate stakeholders

All BECHS faculty and staff and the SBDM members helped develop the CNA and CIP. WE used multiple data resources, benchmarks, attendance, counselor visits (mental health), discipline data and failure rates to ensure we had a targeted plan developed. Data sources such as EOC scores, AP Scores, attendance, discipline and teacher reports were used to develop the Campus Improvement Plan. SBDM committee reviewed the CNA and activities/strategies to ensure they are targeted towards improving student achievement, student attendance. The SBDM met in August 23, 2019, November 6, 2019 to review progress

2.2: Regular monitoring and revision

Our CIP is monitored quarterly. November 2019, February 2020, May 2020 and end of year June 2020 evaluations were done to indicate progress. During steering committee meetings and SBDM meetings the plan is divided up amongst the teachers and they give input to ensure we are on target to meet our goals. During the SBDM meeting the plan is reviewed, budget discussed and recommendations are made to update or revise the plan. Anytime there is a large purchase made, teachers are made aware through meetings.

2.3: Available to parents and community in an understandable format and language

The campus improvement plan is published in English to our website. There is a hard copy in the front office. During the Title I yearly meeting we advise parents how to navigate our website and where to locate it and what the document represents.

There are multiple opportunities for us to share the plan in Spanish to parents. The Campus Improvement Plan is translated verbally to parents or any stakeholder upon request.

2.4: Opportunities for all children to meet State standards

BECHS offers multiple opportunities for tutorials. Teachers are available mornings, afterschool and on Saturdays. The teachers are given the opportunity to attend trainings, conferences in their field and in areas to increase student engagement and student success in their courses.

Our counselors provide morning, afternoon and Saturday services for TSI. Counselors will provide a socioemotional support to student who are struggling. Teachers utilize proven academic strategies in the core area classrooms to engage students. Teachers will need to be given the opportunity to attend relevant professional development to ensure proven strategies are implemented in the classroom.

2.5: Increased learning time and well-rounded education

Multiple opportunities are given to the students at BECHS to ensure academic success. Summer bridge is offered and mandatory for all incoming 9th graders. During this time the 9th grade teachers give them a preview of what to expect in the classroom. Not only are the core areas covered, we cover multiple courses that revolve around cyber bullying, cyber safety, collaborative group assignments to ensure they can work collaboratively with others. Tutorials are offered by all teachers to increase learning time.

We offer a preview to the AP curriculum and TSI. We want every student to be well rounded in academics. Additional learning time and an enriched curriculum is provided to the students during the day and extended during tutorials.

2.6: Address needs of all students, particularly at-risk

We provide necessary tutorials for all students. Tutorial sessions are available before, during and afterschool. Students at risk of failing or students who are not attending school the counselor will provide social emotional support. She will ensure students take advantage of the Saturday academies, counseling session. Curricular academic support and counseling help all students to navigate obstacles to be successful. Counselors provide extended day services for students that may need assistance afterschool.

Most students perform well academically at the university. Those students that are identified as possible academic probation or suspension are enrolled in a support class throughout the day.

ELEMENT 3. PARENT AND FAMILY ENGAGEMENT (PFE)

3.1: Develop and distribute Parent and Family Engagement Policy

BECHS provides meeting times for parents. We meet once a month to discuss events, student progress and review expenditures up to that point. Meetings are held in the cafeteria. Meeting times in the evening are at 5:30 pm. Makeup meetings are held the following day at 9:00 am for those that may not have been able to attend the evening meeting. Having meetings in the morning or evening provides the flexibility to the parents to choose a time and date.

We use the school messenger to invite parents and send a flyer home with the students to advise parents of the meetings. We provide snacks, water and coffee with funds provided by Title I.

We have our annual Title 1 parent meeting and offer snacks, coffee and water.

BECHS Administration, Ana Zamora, parent and family engagement representative, several of our students and parents are involved in reviewing the Student/parent/School compact.

The Student/Parent/School Compact is in English and Spanish.

3.2: Offer flexible number of parent involvement meetings

We offer multiple meeting times. We may have a repeat of the same meeting a week later or the morning after to ensure parents are able to attend. Students are given a flyer to take home and school messenger is used to inform parents of the meeting.

BECHS provides parents of participating children timely information about programs and a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the achievement levels of the challenging State academic standards.

Meetings were held on Thursday evenings once a week (pm) and on Friday Mornings (AM) the day after covering the same agenda. The meeting was held on site at BECHS in the Cafeteria.
